
CAROLINA PLANNING JOURNAL

VOLUME 44 CALL FOR PAPERS

The Carolina Planning Journal is now accepting abstracts for case studies, practical applications, criticism, research, and analysis related to the following planning techniques:

CHANGING WAYS, MAKING CHANGE

Our nation is facing pressing problems: a widening wealth gap, social inequities, systemic racism, climate change, gun violence, sexual assault, and more. How can planning engage in new ways to address today's critical problems and advocate for needed radical change?

TOPICS MIGHT INCLUDE, BUT SHOULD NOT BE LIMITED TO:

- Unlikely partnerships in planning
- Planning cities for women
- Uses of big data in planning
- New outreach, education, and community engagement strategies
- Climate adaptation and resilience planning
- Planning in the sharing economy
- Equitable and inclusive placemaking
- Creative financing for affordable housing

SUBMISSION GUIDELINES

By **August 15, 2018**, authors should submit a one to two page proposal for their articles. Proposals should include the title, a short description of the topic or case, the background and significance, preliminary implications, citations, and, if an academic proposal, a summary of existing literature on the subject including the title and thesis statement of a maximum of five relevant papers. Final papers will not exceed 3,000 words. Proposals should be submitted via e-mail to CarolinaPlanningJournal@gmail.com.

By **September 15, 2018**, the Committee will make a decision on all proposals. The Committee will contact authors regarding their proposals. Authors will work with the editors to monitor the paper's progress and provide general guidance in completing the paper within the specified timelines. Authors should expect to work through two or three drafts with the editors. The print volume will be published in the Spring of 2018. Carolina Planning editors reserve the right to edit articles accepted for publication, subject to the author's approval, for both length and content considerations.
